Sun City Hilton Head Computer Club
Minutes of the General Meeting
February 16, 2017

Opening Remarks: Mark Davis

Good Afternoon Everyone - We are going to have a wonderful program today that I will introduce at the end of your Committee Reports. The most important item that I have to share with you is that our New Website will officially be launched on March 1st - yes, of this year! Once it is launched it may take us time to work through any rough spots that membership run into. So if that happens to you please email me with the issue that you ran into.

I would like to take a moment to recognize the loss of Robert "Buckey" Sheehan from computer club family. As indicated in the notice that was sent out on the listserve, the Computer Club will be closed on Saturday of this week so that our volunteer monitors or PC/Mac/Smartphone and Tablet helpers can attend his memorial service at St. Gregory the Great beginning at 10:30 AM. Buckey was a man that never met a stranger. He scheduled our classes for the last 6 years by calling each of our instructors and reviewing what they may want to teach - sometime with a gentle strong arm - and when. His conversations were cheerful, warm, and upbeat. He is truly missed!

I would like to move on to our Committee Reports by asking Carol Trainor to come to the Lectern and provide the financial report.

Committee Reports

Treasurer: Carol Treanor

Since we only covered the budget last month, this report will cover financial information since the beginning of the year. We started the year with a checking account balance of $28,732. To that we added

$5,978 in income attributed to Dues of $3,120 and Fees for the Holiday Party of $2,572. We spent $5,321, which included the purchase of a new projector for the classroom of $3,227, leaving the Club with a closing balance of $29,388. In addition, we have a CD in the amount of $20,922, giving us total assets of $50,310.

Membership: Brian Gilroy

Monitors: Bill Dreyer
The monitors are doing a great job of volunteering to keep the computer center open during a very busy time with classes and help sessions. We have trained and added (5) new monitors this year and we remain ready to train club members who would like to become a monitor. Monitoring is a good way to give back to our club. There is no technical skills required though we encourage our monitors to share whatever knowledge they can.

Education: Robin Seaver
Scheduling Jan and Feb Classes was dear Buckey's last Hurrah.
Of the 580 seats in 41 classes we offered, as of this morning 511 or 89% of seats were sold.
Debbie Dennis and Catherine Tracy did most of the scheduling for March and have added 31 classes to the calendar. March classes will be sold 2/17 starting at **noon.**

Programs: Mark Davis/Honey Burt
Our Program for March will be Rich DeAsla. His presentation will be focused on "Preservation, Recovery and Restoration" of old Photographs. We plan on inviting Photography club members to share this meeting with us.

Our Monthly meetings will resume in September, and I am happy to report, that our presenter will be our own, Carol Clark, who will

enlighten you about Genealogy... there is so much to learn. You won't want to miss either of these meetings!

Now for today's program: I would like to introduce Karen Morris, Director of EMS Education Services. Karen, Welcome to the Sun City Hilton Head Computer Club's General Membership meeting. We look forward to your presentation.

Respectfully submitted,

Norma Stewart, Secretary
